Favorites

Button to add/remove bulls from favorites

- "Filled" star: There are bulls in favorites.
- "Unfilled" star: There are no favorites.

If you swipe from left to right across the desired bull entry in favorites, this bull will appear in favorites. In the menu at the bottom, the count will change adequately according to the number of bulls in favorites. If you want to remove this bull from favorites, you swipe the same way from left to right in favorites. Moreover, you are able to mark a bull as favorite by tipping on the bull entry, by choosing **"Add to favorites"** or by tipping the star in the bull card.

Color tags:

When tipping on a bull entry in favorites, you can add color tags. This will pop up on the right side of the display. You can remove tags from particular bulls or from all in favorites. You can also name the tags in the menu in "settings".

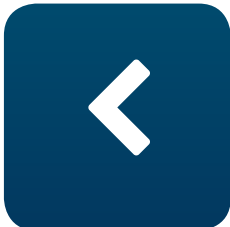

Contact

You will find the contact form here as well as all contacts of the GGI team in Germany.

Navigation

In the bull list, you can either display the bull before or after the one currently shown. When tipping on the blue arrow showing to the left, you will go back to the previous navigation level.

Alphabetic sorting

Within a list, you can arrange the entries in ascending or descending alphabetical order.

Value-related sorting

Within a list, you can arrange entries in ascending or descending order by values (e.g. RZG, RZE etc).
